

# Cadaver Dissection Course

**SPRING - 2020** Biology 848NV **Rm S202**

This Spring 2020 semester, Merritt College will provide a course rarely offered anywhere in the nation that will give students instruction and training in fine dissection, cleaning, identifying, and tagging of structures of the human body. Goals will include the conservation and preservation of specific cadaver structures. This course, beginning February 7, 2020 is open for direct (not online) enrollment and will be held Friday evenings, 6-10pm, in the Merritt College Anatomy Lab. Space is limited. Not graded/non-credit.

For more information on the course, contact instructor: Professora Em Segmen  
[esegmen@comcast.net](mailto:esegmen@comcast.net)
