U.C. COLLEGES and MAJORS that **do not accept or recommend** the use of IGETC: (SEE A COUNSELOR FOR FURTHER INFORMATION).

Berkeley: Haas School of Business; Colleges of Chemistry, Engineering, and Environmental Design.

Davis: College of Engineering; Division of Biological Sciences, and majors in the College of Agricultural and Environmental Sciences and the College of Letters and Sciences that require substantial math and science preparation, such as: Chemistry, Environmental Toxicology, Food Science, Nutrition Science, Physics, Viticulture and Enology, etc.

Irvine: Students entering majors that require specific or substantial preparation, such as science majors, may use IGETC but need to give priority to completion of lower division preparation courses.

Los Angeles: School of Engineering and Applied Science or the School of Nursing. **Merced:** IGETC is not recommended for majors in the School of Engineering and Natural Sciences. **Riverside:** The IGETC is not appropriate for students entering the College of Natural and Agricultural Sciences or the Bourns College of Engineering. **San Diego:** Students choosing majors that require specific and substantial lower division preparation, as in the Jacobs School of Engineering, may use the IGETC.

However, lower division degree requirements should also be emphasized in transfer program planning. IGETC is accepted at Earl Warren, John Muir, Sixth, and Thurgood Marshall Colleges. Students who follow IGETC are welcomed at E. Roosevelt and Revelle Colleges. However, they must meet specific graduation requirements of those colleges.

Santa Barbara: IGETC is not appropriate preparation for transfer into the College of Engineering and the Computer Science major in College of Letters & Science.

Santa Cruz: Although the IGETC is acceptable for all majors, students planning to pursue majors that require substantial lower-division preparation, such as those offered in the School of Engineering, the sciences, or environmental studies, should give priority to the completion of major prerequisite courses.
