Spring 2021 Cannabis Class

LH840: Cultivating Cannabis for the Home Gardener

Saturdays March 27 and April 3 - 10:00 am to 4:00 pm

Learn how to grow high quality organic cannabis in your own backyard!

This class covers ecological and sustainable best practices for outdoor home cannabis cultivation; integrating cannabis into your backyard garden; harvesting, drying and curing; and how to make basic topical and edible extractions. Cost is \$120 for 12 hours of instruction taught by Merritt College Professor Matthew Witemyre and exciting industry leading guest speakers including:

Johanna Silver, author of [Growing Weed In the Garden](#); Dr. Kay Watt, Botanical Geneticist at Dark Heart Nursery; and Dr. Amanda Reiman, Vice President of Community Relations at Flow Kana.

Please contact mwitemyre@peralta.edu with any questions.
