

How much of the world are you seeing?

Introduction to Biodiversity (BIOL 29/29L)

Tuesdays and Thursdays from 9-10:15AM and 10:30-11:45AM

An in-person course where we will explore all of the known life on Earth. Learn more about microbes, the stunning organisms in the ocean, and the diversity in your backyard.

Explore

There are 8.7 million species in the world.

Got questions about a plant in your yard, a bird flying by, or the Planet Earth show? Start to get answers.

Support

Teaching strategies that support all students.

Student centered activities, group work, lots of conversation, and recognition of issues impacting students

Credit

Applies to a number of academic goals

Applies to all 3 Natural History and Sustainability certificates as well as Gen. Ed. Natural Science credits for both UC and CSU
