

**Merritt College Radiologic Science Program
Program Status 5-7-14**

- The program accepted 26 applicants into the class beginning August 2014. The program also accepted 4 alternates. All accepted students and alternates originally applied to the program in 2012.
- 14 applicants from 2012 remain on the Wait List, leaving approximately 12 slots for 2014 applicants.
- Seventy-nine 2014 Applicants met the criteria to be placed on the wait list.
- Due to the backlog of applicants on the Wait List, the program is only accepting applications every other year, in even years. However, selection (including lottery when appropriate) will continue to take place every year, with a new class starting every year.
- The next application period will begin January 15th, 2016-April 15th, 2016.
- The program accepts 22-26 students per year, depending on available clinical placements. Priority is given to students who have been on the Wait List the longest (2012 applicants have priority over 2014 applicants for selection in 2015).
- 2014 applicants may expect to remain on the wait list for 1-3 years.
