

Welcome to Merritt's **Biology 29** Classroom

If you love the outdoors and want to get out of your regular classroom and into a natural one, take **BIOLOGY 29** for your non-major science credits for Peralta, CSUs, and UCs. Here's why:

- 🌿 Fun, hands-on classes indoors
- 🌿 Field trips for real-life learning outdoors
- 🌿 Amazing discoveries about plants and animals
- 🌿 Interactive learning; no boring lectures, ever!
- 🌿 Cool new professor who has an insect named after him!

Dr. Brad Balukjian is a UC Berkeley entomologist (which means he's an expert on bugs!) and a writer for National Geographic. For questions, contact him at bbalukjian@peralta.edu and find out more about him at bradbalukjian.com
