

Cadaver Dissection Course

SPRING - 2022 Biology 848NV **Rm S202**

This Spring - 2022 semester, Merritt College will provide a course rarely offered anywhere in the nation that will give students instruction and training in fine dissection, cleaning, identifying, and tagging of structures of the human body. Goals will include the conservation and preservation of specific cadaver structures. This course, beginning February 11, 2022 is open for direct enrollment and will be held Friday evenings, 6-10pm, in the Merritt College Anatomy Lab. Space is limited. There are no grades or credit units.

For more information on the course, contact instructor: Professora Em Segmen esegmen@comcast.net

Cost of course:
\$55 per session for multiple sessions (paid in advance)
\$60 per single session (option)

4 cadavers for all sessions

Spring Lab Dates, Fridays 6 - 10 PM

Feb. 11th
